Invented for life

Robert Bosch  
Automotive Steering GmbH  
Richard-Bullinger-Straße 77  
73527 Schwäbisch Gmünd

## Bosch Automotive Steering

Bosch Automotive Steering is an independent division within the Bosch Group. It has its headquarters in Schwäbisch Gmünd, Germany approximately 50 km East of Stuttgart. In 2014, the company achieved a turnover of more than 4.39 billion Euros.

With innovative leading-edge technology for passenger cars and commercial vehicles we are one of the world's market leaders for steering systems. We fascinate demanding vehicle manufacturers and get new vehicle concepts moving for the international automotive industry.

Among our customers are internationally successful automotive companies such as BMW, Audi, VW, Porsche, Ford, Jaguar, Mazda and many more.

Bosch Automotive Steering follows the guideline "Our strength lies in our employees." Over 13,000 people at 20 locations, in eight countries, on four continents are steering towards the future with us.

To strengthen our Bosch Automotive Steering team in China and achieve a continuous company development, we would like to invite you to join the competitive "Top Talents for Top Company" program, in which you will receive the first experience of the exciting world of steering technology.

## Bosch Automotive Steering

### Highlights

Starting in September 2016, you will spend six months in an international and practice oriented learning environment at a first-class German university of applied sciences in Aalen. Afterwards, you will come to the headquarters of Bosch Automotive Steering where you gather your first practical experience in an internship and finish your graduation thesis.

Our professional know-how, the international working environment, as well as our diverse and open company culture will provide you with the best basis for success. After you have graduated successfully, you will get the opportunity to join Bosch Automotive Steering in China.

You will be supported with a scholarship by Bosch Automotive Steering.

### Requirements

For the program starting in 2016, we are looking for sophomore students who:

- major in Mechanical Engineering, Electrical Engineering, Production Engineering or Mechatronics
- study in fourth semester
- have above-average grades
- show an entrepreneurial way of thinking and acting
- enjoy working in international teams
- have good language skills in English, German is of advantage
- and bring along intercultural competency.

## Top Talents for Top Company

### How to Apply

To start the application process, please send the following documents to the contact at your university:

- Application letter & CV (English & Chinese Version)
- Two pieces of 2# photo
- One copy of Exam Result Certificate of the past semester (or Exam Result Certificate of NCEE)
- Recommendation letter from your tutor is preferred

You may submit the documents mentioned above via email or send the hardcopy to our company.

**Application deadline:** July 15th, 2015

If your application documents convince us that you are a top talent, we will invite you to a personal interview.
