Top Talents for Top Company

Highlights

After studying for six months at Aalen University in Germany, you will receive an individual and career oriented training in form of internship at the headquarters of Bosch Automotive Steering in Schwäbisch Gmünd.

Here, you will gain the first insight and experience: our professional know-how, the international working environment, as well as our diverse and open company culture will provide you with the best basis for success.

After graduation, you are prioritised to join Bosch Automotive Steering (Nanjing) Co., Ltd. or Bosch Automotive Steering Jincheng (Nanjing) Co., Ltd.

Bosch Automotive Steering will support you with a scholarship during program.

Requirements

- ▶ Major in Mechanical Engineering, Electrical Engineering, Production Engineering or Mechatronics
- ▶ Last study year starts in September 2018
- ▶ Above-average grades
- ▶ Entrepreneurial way of thinking and acting
- ▶ Enjoy working in international teams
- ▶ Language skills in English (CET-6); German is advantageous
- ▶ Intercultural competency

Bosch Automotive Steering

Bosch Automotive Steering is an independent division in Schwäbisch Gmünd, approximately 50 km to the east of Stuttgart. We maintain 25 locations worldwide in twelve countries with nearly 15,000 employees. Bosch Automotive Steering is part of Mobility solutions, the largest Bosch business sector. In 2016 it achieved a sales revenue of more than 43,9 billion euros.

We are a pacesetter and trendsetter in the field of steering systems for passenger and commercial vehicles. Whether Servotronic speed-dependent rack-and-pinion power steering, energy-saving Servolectric electric power steering, active steering, steering columns or low-consumption steering pumps – we set the course for technological change and are a highly capable, experienced partner for the automotive industry.

As innovation and technology leaders, we have always dedicated ourselves to finding and developing talents. "Top Talents for Top Company (TTTC)" is one of the important, future oriented programs focusing on continuous talents development. Sincerely, we would like to invite you to join TTTC program, in which you will receive first experience of the exciting world of steering technology.

Program Process

- Step 1** 10/2017: selecting students from Chinese universities
- Step 2** 11/2017 - 08/2018: language and other preparation in China
- Step 3** 09/2018 - 02/2019: one semester theory at Aalen University
- Step 4** 03 - 08/2019: internship at Bosch Automotive Steering headquarters in Schwäbisch Gmünd
- Step 5** 09/2019: Employment of Chinese students upon graduation in Chinese Bosch Automotive Steering locations

How to apply

To start the application process, please send the following documents to Ms. BAO Tingting or Ms. WANG Xin (contact information see back page):

- Application letter & CV (English & Chinese Version)
- Two pieces of 2# photo
- Copy of Exam Result Certificate of the past semesters
- Copy of English (CET-6) and German Language Certificate
- Recommendation letter from your tutor is preferred

Application deadline: October 10th, 2017
