

Introduction of SEU International Summer School Program

Theme

Model International Organizations

This English immersion program is designed to foster a learning environment where SEU students can understand how international organizations work by participation in various model programs, and can map the key steps of their possible professional future on employment by international organizations.

Overview

Based on three courses of “English Skills Training”, “Translation Techniques” and “English Public Speaking and Debate”, the curriculum will include interactive lectures, speeches, model programs and various writing activities. Students will develop both English language competence and social communication skills, and learn about international organizations through extensive interactive activities with qualified teachers and student volunteers.
