Internships

Students have the opportunity to develop familiarity with Australian workplace culture while applying their academic learning in real workplace situations. By enrolling in our credit-bearing internship unit of study (ARTS2600), students can enhance their communication, cross-cultural and interpersonal skills, while gaining a competitive advantage in the graduate employment market.

About ARTS2600

Students complete 10 hours of professional development training, 4 reflective assessments, a final report, and a minimum of 120 hours with a host organisation. The placement requires no extra fees and students receive a final grade that appears on their University of Sydney transcript. We work with companies from a variety of fields including start-ups, technology firms, communication agencies, and not-for-profit organisations.

Recent placements include:

- Rainforest Rescue
- Catapult Business Accelerator
- ESG Reporting Intelligence
- Property Council Australia
- The Water Conservancy
- Asylum Seekers Centre
- Flying Bark Productions

Eligibility

Applicants are assessed against selection criteria and are selected on a best-fit basis.

Eligibility requirements include:

- Be a Study Abroad applicant and satisfy all entry requirements (listed below)
- Have a cumulative GPA of 3.0 or higher on a 4.0 scale, or an average of 'C' or better on the ECTS grading scale
- Have completed at least 1 year of university study

Placement process

Placement is competitive and based on key performance indicators such as GPA, prior academic studies and goals, and the outcome of a video interview. Though every effort is made to place all eligible applicants, placement is not guaranteed.

“I loved my internship. I was able to learn how to create professional documents, speak to clients, present to more senior people, and learn about Australian culture. My biggest achievement was being able to present on the process of creating a Reconciliation Action Plan to a client. I had no idea what an RAP was and by the end of my internship I was able to explain it in full detail to a senior level manager.”
